- KLWB01, Hay, Double A (Yates et al. 2004)
- KLWB01 (Yates et al. 2007)
- Crisscross, SLI-004 (Freund 2010)

FIRST SEEN: 2004

SIZE: Medium

SEX: Female

NOTES

Likely mother of Ale; and always associated with it. Very often associated also with Carla and Giaba

FEATURES

- General

Black in colour, with light grey saddle patch

- Right side

There are many lines and signs. The most peculiar ones are:

R1) Three, almost parallel, left inclined lines, which are crossed by one almost horizontal line plus another lighter and slightly curved one. It resembles a criss cross game. This is the most distinctive feature on the right side

- Left side

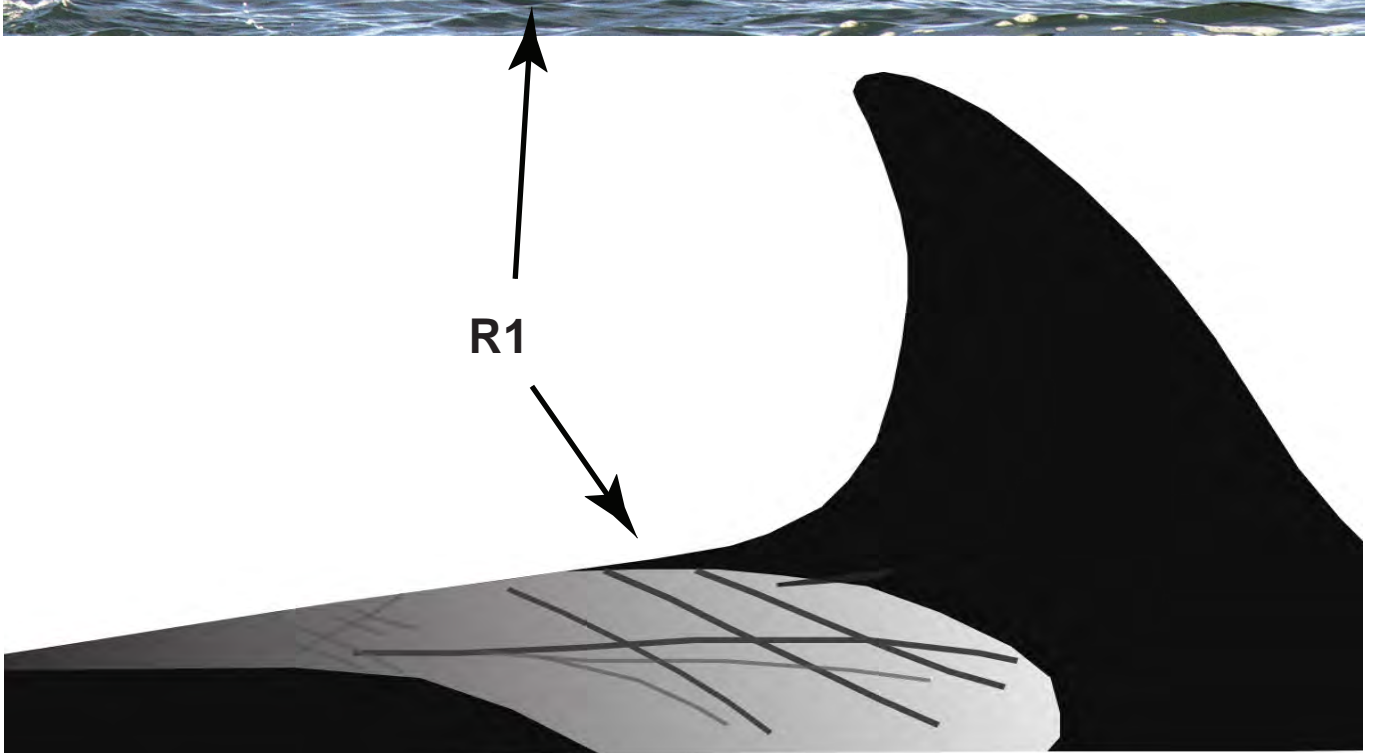

There are many lines and signs. The most peculiar ones are:

L1) A black curved line in the upper central part of the saddle patch. It seems to be a part of a circle. This is the most distinctive feature on the left side, and it is almost always visible

- Fin

Fin is big and wide, both at the base and towards the tip, being very little curved

Right side

Left side
